# Packing

■ **Just packed was yesterday!** The form and functionality of the systainer® is ideal for a wide variety of uses. A patented linking of the individual systainer® units to form one unit, gives optimum handling.

# Organising

■ **The chaos has an end!** The most important demand on an intelligent transport and packing system is a highly variable and diverse interior, which can be adapted to the customer's needs.

# Presenting

■ **It is the first impression that counts!** Optimal presentation is one of the most important tools in all companies. The systainer® product line offers fascinating exterior design combined with professional systematics.

# Transporting

■ **Mobilise your daily work!** Either in shipment with logistic groups or private transport, the systainer® product line meets all demands.

# Short extract of

## The systainer®

The systainer® has been originated from the demand to transport working material and tools as secure and time efficient as possible. We accomplished this through an unique patented linking system which enables that all systainer® are stackable and linkable. All systainer® are protected against dust and splash-water.

**systainer® sizes** – Nine combinable sizes build up the centre of the product line.

**Modular system** – All systainer® units are quickly and individually linkable / combinable.

**Comfortable transport** – Several systainer® which are linked to each other can be carried by a single handle. This offers a high degree of mobility. Due to the extricable blocked slide-in modules of the Rack-systainer® or of the Drawer-systainer® you even have direct access to your stored small parts.

**Exchangeability** – Every component of the systainer® such as body, lid, handle or catches can be replaced easily.

**Quality** – 100% ABS stands for a high degree of durability.

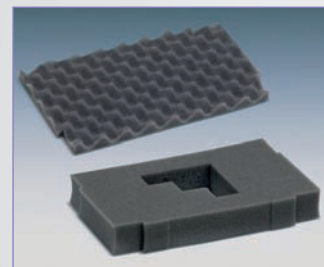

MINI-systainer® I

for systainer® IV-V art n° 402-752

## Colours

Apart from our two basic colours you have the choice from eight other standard colours. You can create your individual systainer® from various coloured parts already from a quantity of 1 piece.

## Print

Your company logo or a publicity slogan can be printed on all four sides of the systainer®-body, on the lid and on the handle – even in colour print. The minimum quantity is only 50 systainer® per size. The printing of the catches is possible from a minimum quantity of 250 pieces.

## Design

With an individual choice of colours for body, lid, handle and catches you can adapt the image of your systainer® to your corporate design.

## Distribution

All systainer®-products are stocked in our modern warehouse until the production is complete. Afterwards, we will arrange the delivery. We can also coordinate the logistics directly to your clients.

## Basic colours

	RAL 7035 <i>light grey</i>
	RAL 7016 <i>anthracite</i>

## Standard colours

	RAL 1007 <i>daffodil yellow</i>
	RAL 3002 <i>carmine red</i>
	RAL 5015 <i>sky blue</i>
	RAL 5003 <i>sapphire blue</i>
	RAL 6001 <i>emerald green</i>
	HKS 54 K <i>signal green</i>
	RAL 9016 <i>white</i>
	RAL 9004 <i>black</i>

## Dimensions of the systainer®-family

The design of the systainer® system will guarantee flexibility to meet a multitude of demands. The ability to link all systainer®-sizes in an uncountable number of possibilities makes a wide variety of uses possible.

size	height	weight	interior in mm	exterior in mm
<b>systainer® I</b>	105 mm	1,3 kg	L 72 x W 377 x D 277	L 105 x W 400 x D 300
